

# Alfalfa Seed

**\*All prices subject to change\***

## Enduro 423 Alfalfa Seed

EnduroPlus 423AP is a high forage yielding, good forage quality, branch rooted and sunken crown alfalfa variety.

**\$5.30/pound    \$255/50 pounds**

## Enduro 429LH Alfalfa Seed

Potato Leaf Hopper Resistance, very winter hardy and persistent.

**\$5.40/pound    \$260/50 pounds**

## Cisco 328 Alfalfa Seed

Large crowns with good tillering and heaving tolerance. Superior persistence due to excellent disease package.

**\$3.90/pound    \$180/50 pounds**

## Planting Tips:

Seed 14-20 pounds/acre straight  
Seed 8-10 pounds/acre in a mix

Plant between March-April  
or plant August-September

# Clover Seed

## Bearcat Red Clover

3 year clover; quick spring green-up, good recovery after heavy grazing. Great choice for low fertility soils.

### Planting Tips

(Straight) 10-12 pounds/acre  
(Mix) 2-6 pounds/acre  
Plant January-April or August-September

**\$4.30/pound    \$205.00/50 pounds**

## Medium Red Clover

Short lived perennial forage legume. Great for green manure, plowdown and cover crop. Frost seeds well.

### Planting Tips

(Straight) 10-12 pounds/acre  
(Mix) 2-6 pounds/acre  
Plant January-April or August-September

**\$4.10/pound    \$185.00/50 pounds**

## Alsike Clover

Adapted to similar areas as red clover. Grows on wide range of soils.

### Planting Tips

(Straight) 6-8 pounds/acre  
(Mix) 1-2 pounds/acre  
Plant February-April or August-September

**\$3.65/pound    \$157.50/50 pounds**

## Ladino White Clover

Great legume for pastures. Provides nitrogen and protein content to a pasture. Very large leaves.

### Planting Tips

(Straight) 4-6 pounds/acre  
(Mix) 1-2 pounds/acre  
Plant February-April or August-September

**\$5.40/pound    \$230.00/50 pounds**

## Advantage Ladino Clover

Great for pastures or wildlife plots. Remains in vegetative state during whitetail deer antler growth.

### Planting Tips

(Straight) 4-6 pounds/acre  
(Mix) 1-2 pounds/acre  
Plant February-April or August-September

**\$5.00/pound    \$200.00/50 pounds**

## White Dutch Clover

Great for use in plant nurseries between rows. Works well as a forage. Small leaves, low growing.

### Planting Tips

(Straight) 10-12 pounds/acre  
(Mix) 2-6 pounds/acre  
Plant January-April or August-September

**\$4.80/pound    \$220.00/50 pounds**

# Forage Grass Seed

\*All prices subject to change\*

## Climax Timothy Seed

Best used for hay, baleage, haylage.

- New seeding: 10-12 pounds/acre
- Overseeding: 1-4 pounds/acre
- Plant March-May/August-September

**\$2.90/pound**

**\$130/50 pounds**

## Tuuka Timothy Seed

Recommended for hay, grazing, silage or green chop (direct feeding).

- New seeding: 10-12 pounds/acre
- Overseeding: 1-4 pounds/acre
- Plant March-May/August-September

**\$3.05/pound**

**\$137.50/50 pounds**

## Tekapo Orchardgrass Seed

Tekapo Orchardgrass can be grazed to near ground level.

- New seeding: 15-20 pounds/acre
- Plant April-May/August-October

**\$4.50/pound**

**\$205.00/50 pounds**

## Profit Orchardgrass Seed

Profit Orchardgrass is late-maturing and bred primarily for forage production.

- New seeding: 15-20 pounds/acre
- Plant April-May/August-October

**\$4.50/pound**

**\$205.00/50 pounds**

## Bronson Tall Fescue Seed

Bronson is low endophyte, tough, and has softer leaves.

- 10-15 pounds/acre (mix)
- 15-30 pounds/acre (straight)
- Plant March-May/August-September

**\$3.90/pound**

**\$180.00/50 pounds**

## KY 31 Tall Fescue

K-31 is most often used for erosion control, average landscaping and waterways.

- New seeding: 8 pounds/1000 sq ft
- Overseeding: 4 pounds/1000 sq ft

**\$3.90/pound**

**\$180.00/50 pounds**

## Feast II Italian Rye Seed

Feast II is short-lived, but extremely productive and provides a high quality forage throughout the summer.

- New seeding: 30-45 pounds/acre
- Overseeding: 20-30 pounds/acre
- Plant February-May/August-October

**\$1.95/pound**

**\$78.00/50 pounds**
