

CISCO Fescue/Rye Mix

FORMULATION

- 75% Turf-Type Tall Fescue (3 elite varieties)
- 25% Turf-Type Perennial Ryegrass (elite variety)

NOTABLE CHARACTERISTICS

- Dark green color
- Fine textured leaf blades
- Excellent durability for high traffic areas
- Excellent drought tolerance
- Deep root structure
- Excellent disease resistance
- Less fertilizer required than for other elite mixes
- Less water required than for other elite mixes
- Use in full sun to partial shade

CISCO Fescue/Rye Mix is comprised of beautiful, yet durable Turf-Type Tall Fescue with top quality Turf-Type Perennial Ryegrass. There are no “low-end” varieties in this mix! All varieties selected for this mixture show good to excellent ratings in NTEP* trials for wear and traffic tolerance and over-all turf quality.

SEEDING RATE

New Lawn 8-10 lbs/1,000 sq. ft. or 425 lbs/A
Overseeding 4-5 lbs/sq. ft.

Sunlight needed	Full Sun-Partial Shade
Soil Types	Clay to Sand
Maintenance	Medium
Fertility	Medium
Traffic	Very Good

NOTES ON TURF-TYPE TALL FESCUE:

Turf-Type Tall Fescue is known as a durable, drought tolerant grass that is much more fine bladed than the tall fescues of the past. The improved varieties have a very dark green color and matches well with Turf-Type perennial ryegrass.
